Contemporary, Acoustic Country/Blues. 10 MP3 Songs
BLUES: Acoustic Blues, BLUES: Blues Vocals
Details: Contemporary Acoustic blues with a dash of humor, a dash of pain and a lot of life experience. This debut solo CD is a collections of songs built on the blues tradition with modern influences. It features smooth soulful vocals, full of subtleties and rich textures that can pull you into the songs. The fingerpicking style guitar and bottleneck style of slide blend with the lyrics and melodies to create a rich full sound that belies the fact that the tracks are mostly a single guitar and vocal. The songs on this CD are a modern evolution of roots blues music blended with elements of jazz, country and folk music.
