Alternative Sunshine-Pop from Cornwall. 10 MP3 Songs POP: Sunshine Pop, ROCK: College Rock Show
all album songs: Picture Of The Sun Songs Details: Jud Vandy is 22 years old and has been recording his own music since he was 15. Picture Of The Sun is his attempt at creating a lush, colourful, alternative pop album. "Cambornes Jud Vandy (theres a name made for a rock career) has been a precocious talent on the Cornish music scene for a few years. Now hes decided to go solo and with some very interesting results. His debut album, Picture Of The Sun, self-recorded on four-track, has just been released. This is sunshine slacker pop that recalls Syd Barret if he fronted an even more lackadaisical Dinosaur Jr. The title track sounds like Sebadoh with added bar-room piano while the rhythmic Jellybaby is as lysergic as prime-time Julian Cope. Elsewhere, the Robyn Hitchcock psycho-babble pop of Lights From St Ives is a winner. The just-got-up yawn of Jud's voice perfectly suits the lazy vibes of the music." - Lee Trehwela, The West Briton "...There's a likeable quirk to Camborne's Jud Vandy... there are plenty of acoustic-flavoured songs on Picture Of The Sun that are brimming with style, substance and invention - music powered, perhaps, by illicit campfire jamborees and exclusivley Cornish idiosyncrasies(sic). ...Jud's onto a winner, for sure." - Backbone, 24-7 Magazine (UK Southwest)
