Terry, has strengthen his ability to produce music that is nice to hear. He was Born in Port Huron Michigan and Grew up in Detroit. Playing the Guitar at first then mastering the Keyboards. His music is a cross between Jazz and Newage listening music. He calls his style of music Jazzlaxx a relaxing jazz and Newage music. Most of his music is mood music and will put you through a genre of melodic memories of your past and present. Some may even bring upon a tear. I just want you to hear my music..... Terry Shaw Special thanks to my mother Katherine L Shaw (Kay) for being patient with my noise in the bathroom on the Guitar as a child.....Love you mom... Terry Special thanks to God Jahovah through Jesus with out him nothing is possible, with him everything is.... I would like all of the proceeds of this CD to be given to the Katrina, Rita, and Wilma Victims.. Terry Shaw
