"Its message is right now and to the heart, above the politics of war using awesome professional talent from all over the world: fusion sounds from the South Bronx, authentic African Rap, smooth jazz, folk rock, and modern pop." 8 MP3 Songs SPOKEN WORD: With Music, FOLK: Folk Pop Details: We are the Annihilated. We've gathered here in LA awesome professional talent from all over the world, to create NEW sounds! Vinny brings his fusion sounds from the South Bronx. Joe is an original West African Rapper. Bujou is introducing his 26- string Cora (passed down from his royal grandfather). Stuart splits his time, sometimes playing lead guitar for the band JEWEL and sometimes laying down tracks for us. We finally got Curt to make his home studio in LA, after flying high, managing the sounds of big-name tours in Europe and Asia. Jen's not only a professional jazz vocalist and a Southern Cal beach girl, but her husband is a fighting fireman (would you believe it). Of course, Nasty Mouth, is to blame for the lyrics. A few of the songs from our just released CD are: "Checkmate RIAA!", "Breaking Mirrors", "How is Your Sky", "If I Had a Dream", and the title tune, WAR MOVIE.
