

## Mp3 The Del Souls - My Neighborhood

[DOWNLOAD HERE](#)

Easy Listening and Soft Rock with a 60's harmony flair. Reminiscent of 60's era Rock N' Roll. 14 MP3 Songs EASY LISTENING: Soft Rock, ROCK: 60's Rock Details: Remember when we were teenagers without a care in the world. Back then we didn't know how good our lives were. We had Rock-N-Roll, Drive-in's with Car Hops, Malt Shops and of course Drive-in Picture Shows. The Del Souls are committed to bringing you original, genuine and honest music from this era the whole family can enjoy. We are dedicated to the original concept of Rock n' Roll, quality and entertainment. Like the music, it will last forever. The Del Souls, have a sound distinctively their own, reminiscent of the classic American soundtracks of the 50's and 60's, while charting fresh, new, lyrical, melodic territory all too often missing in today's music. Forming The Del Souls are a couple of long-time friends Steve (Guitar Vocals) and Mike (Drums Vocals). Accompanied by Carol (Keyboard Vocals), Jim (Vocals), Bob (Bass Vocals), and Paul (Sax). These budding rockers came of age amid the tract houses, hardware stores, working-man bars and corner stores. Enduring themes as class struggle, lost love and the American dream were never far from mind while listening to this album.
