[Music4Games.net] Merregnon is a soundtrack CD project for which renowned composers from the game industry contribute brand-new titles. By writing orchestral music the artists tell a story taking place in a newly created fantasy-universe. Stars like Chris Huelsbeck (Star Wars: Rogue Leader), Olof Gustafsson (Battlefield 1942), Markus Holler (Stalker - Oblivion Lost), Yuzo Koshiro (Shenmue) and Fabian Del Priore (Cultures 2) already speak for themselves. They, and a number of many more music veterans, have signed on to work on this album trilogy, whose atmosphere will additionally be nourished with impressions and pictures from the richly decorated booklets.
