Urban Gospel Hip Hop with an Old School Flavor 13 MP3 Songs URBAN/R&B: R&B Rap mix, HIP HOP/RAP: Spiritual Rap Details: 4-GOD has been involved with Hip Hop music for twelve years now. Starting at the young age of fifteen, his goal was to ultimately be a producer. He instead decided to focus on learning the craft of being an MC. He started by rhyming words and using metaphors to demonstrate why he should be known as an elite rapper. Battling other MCs was a must and then he began to freestyle everything. 4-GOD learned that freestyle was the beginning of him becoming a true artist and motivated him to start writing songs. He named himself 4-STAR and was part of a group called SHOGUN with four other MCs (A1, WTK, Big Joe Sonny Black). They performed and recorded many songs together as a young group. He went on to write more solo projects and found that fulfillment didnt start for him until he tied in his Christian faith with his Hip Hop talent. GOD revealed to 4-STAR that his purpose was to use Hip-Hop to represent HIM. This began the transition to the name 4-GOD. I dont rap for the streets or for the kids. I rap 4-GOD. It was GOD who blessed me with the ability to be able to relate to the youths struggle. I have had many experiences that were good and bad in my lifetime. Without pain and struggles there would be nothing to learn from. This past year GOD has shown me my purpose in life and that is to live for HIM, 4-GOD, says, 4-GOD. 4-GOD signed with Rey of Hope Records and recorded his first album in 2005. This album is really well rounded. This Album is the definition of feel good music. 4-GOD continues to write new music and grow in his walk with God.
