A mixture of island music mixed with soft rock and traces of disco and funk. 10 MP3 Songs GOSPEL: Country Gospel, GOSPEL: Contemporary Gospel Details: I was born on the small island of Nassau, Bahamas but moved to The Turks and Caicos Islands with my father at an early age. A few years later I met Lovey Forbes who wrote his own songs and sang and played the guitar so well that I was immediately inspired to start writing. It would be some years before I picked up the guitar but I learned a few chords and began to play with one of the local gospel groups that were being formed at that time. I started to play guitar in church and in time became a christian. Later, I was asked to write a few songs for an album by a local group, The Gospel Youths. Upon release of the album it filled my heart with joy to hear my songs being played on the radio. A few years later I moved to Miami where I continue to write and sing my songs in my home church. I try to write songs about what it is like to live the christian life and the trials we all face. Now I am happy to finally present to this album that I have prayed and cried over and spent many a late night patching together. So listen, enjoy and keep the faith.
