havefun-willtravel HOWDY, I've had so much fun over the years performing in South east Wyoming and Northern Colorado. Playing live is my passion and I've always considered myself an entertainer first and a guitar player second. I've cut back performances lately to about 100 per year from about 175 in 1997.

(that was a crazy but fun year). I play solo most of the time but am very fortunate have an awesome band, "Have Fun Will Travel" that consists of some of SE Wyoming's best talent. We generally play originals, original covers and the classics (You know..... Oldies, Older Rock, Country and a touch of Reggae/Calypso). I am known as a fun entertainer with lots of energy with no two shows being the same!

Always a good time! My main musical influences are the Eagles, Robert Earl Keen Jimmy Buffett and I think my writing is very evident of this. That said, lets talk about the Cd. Danno - The Next Time Around
