ROCK: Modern Rock, ELECTRONIC: Pop Crossover Details: In this first outing from DONNELLY we get a little bit of all genres wrapped around an Electrorock base. Hip Hop, Jazz, Rap, Blues, Dance, all put in the blender and poured over a solid rock base. Band members seem to almost be part of one another as the melding and flow of instruments seem to flow right into each other. The GROOVE factor is very high on most of these songs, and you just might catch yourself dancing, or if not, definitely playing the drums on your steering wheel. This CD is in the "FUNGUS" category as it definitely grows on you. Be careful though; listen to this CD 3 times and you might not be able to stop!! You hear a little bit more every time you listen to it. Don't say you weren't warned. Donnelly is offering a money-back guarantee if you are not completely satisfied. Order now from CDBABY and receive your FREE autographed picture of your favorite band member, made out personally to you and mailed direct to your home. This is a limited time offer so order now before they're all gone. Ya snooze Ya lose!!! WE don't really have the story on these guys. Judging from the pictures and names on the website, they all seem to be brothers / cousins or something. Couldn't be a coincidence that they all have the same last name, could it? All except for MONKEYGIRL, the resident backing vocals / band slut. Follow link to website. Something WEIRD going on here but can't put my finger on it.
