Melodic electronic music at its very best. Full of energy and very uplifting. No single second is weak, the music develops constantly. 6 MP3 Songs ELECTRONIC: Electronica, NEW AGE: Progressive Electronic Details: Episodes 1, is the first of two parts of Guido Meyer's earlier Electronic Music Compositions. The Music was originally composed and recorded in 1994, but on this issue, it was remastered and released for the very first time in 2004 (exactly 10 years later). The 6 Tracks on "Episodes 1," have some things in common and that is most of them are very powerful, almost raging but always come up with beautiful melody, intelligent sequencing and creative drumming. This is rather no Music to relax but more uplifting, spacey stuff. Tracks like "Epedic" or "Cold Romance", could be almost described as "Speed Electronic". Must be working great when you drive your car! This Music is really moving. It stands never Still and develops constantly, so there actually is no weak second in this album... electronic at its very best! People who are interested in Tangerine Dream Jean Michel Jarre Ulrich Schnauss should consider this download.
