The time before The Model Rocket Scientists. There was "Junior" consisting of 5 hardware music machines , real drums and vocals to make songs.This one man band doesn't break up! Priding on being able to create everything you hear on the cd in a live proformance. From ealier 2001 "Junior" has been playing tons of shows in the Chicago area , Az. , Ca. , Co .. Drum Space was recorded with Dale Miener of "Wesley Willis Fasco" in Chicago. The Cd cover in a photo of my old apartment building in Chicago on Damen Chicago ave.. The back of the cd is a picture of the inside staircase looking west in to Humbolt Park and to look further west to california but who can see that far. Drum Space is dedicated to my grandpa he was cool. I can't remember his name but a show I did in Hollywood , ca. a radio show host from the east coast said "Junior's music was modern Radio play". Big deal! it's true . Junior played a wedding party and shared a bill with "Garcia" the cop from Reno 911 in Hollywood. I'm very proud of this record and people still listen to it years after they have had it so enjoy! Oh the dog playing keyboard with me in the cd insert is my best friend "Spanky" r.i.p. every loves you spanky
