Bittersweet, punk rock love anthems; angry sex music; Awesome. With a capital "A" 12 MP3 Songs
ROCK: Punk, ROCK: Hard Rock Details: KeN is a unique blend of musical styles and influences created by an uncommon assembly of musicians. Their common goal is a raw natural desire to kick some rock and roll ass. Influenced by waning moons, booze, the concept that music is math, and the urban Philadelphia shadows, KeN channels the grit and spit to shape their song concepts in the cauldron of their original brand of rock. The unique brand of KeN rock has been described as an "estro-gin power collective" (Joey Sweeney, Philadelphia Weekly); "straight-up-shoot-from-the-hip-rock-outfit" (Julie Gerstein, Philadelphia Weekly); "a strange world where everything sounds fine and its OK to fly off the handle" (Eric Wareheim, Rockpile); Mudhoney with girls and the female version of Black Sabbath. KeN's long hallowed history has included shows with such greats as the Psychedelic Furs, Mike Watt, Alice Donut, The Makers, Scrawl, Jenny Toomey, Kimya Dawson, Burning Brides, Ida, Kabochak, and Ben Folds Five. COME WORSHIP AT THE ALTAR OF KeN! THE GODS OF ROCK ARE FEMALE!!!!
