CD Reviews and Comments: "Doiron's debut CD is a collection of keyboard-fueled, radio-ready tracks." -Jennifer Layton, indie-music.com "A finely-crafted generally upbeat album that fits right in with most modern radio formats. On the whole this is just an exceptionally-worked piece of pop that's true to the artist and honest in the messages he conveys. There's enough firepower in the album for Marc to go far, given a break or two. His obvious love for his craft make it such an appealing disc you really can't go wrong with it." - Dan Brisebois, canadianbands.com "The song Living For The Moment has a great overall sound and a creativity not usually found in music these days. It is catchy in a way that brings to memory classic musicians like Billy Joel or Steely Dan...a refreshing burst of talent in a world of monotony." -Review from Garageband.com "His latest release 'Time Is Precious' showcases his flexible talent. No niche is left untouched in the pop domain." -Yanick M. Theriault, Radio J93.5 FM, New Brunswick, Canada
