As with all of his CDs, Mike not only wrote every song, but sang all vocals and played all instruments on every track. Many of Mikes songs from his previous CDs have been played on radio stations in Canada, England (the wonderful BeatlesandBeyond show, hosted by Pete Dicks), Italy, and the United States (including the Blondie and the Viking show on Toginet Radio). "How Does It Feel", Roadwork, and "Told What To Love", three tracks from The Spirit Is The Source, have already been aired on stations in England, Italy, and the United States, and additional tracks from the new CD will soon be featured on those stations as well. Mike was a featured artist from 2006 through 2008 on the website for Beatles Brunch, one of the most popular Beatles-related radio programs in North America. With The Spirit Is The Source, Mike has taken yet another major step forward on his musical journey, as he continues to share with us his observations about life and the world in which we live. Outstanding reviews, as well as glowing reactions and support from an ever-expanding fan base, including the amazing Peter Lacey of England, only serve to further qualify Mike as a songwriter of great depth, possessing the vocal and musical abilities which enable him to so beautifully present his vision.
