An explosion of outstanding pop rock music influenced by Jellyfish, Beatles, XTC and Pink Floyd that is already being called a classic. 14 MP3 Songs POP: Power Pop, ROCK: 70's Rock Details: MiNsTeR HiLL

Formed from the ashes of the much lauded pop-rock band tHE mEsOmEoNeS, MiNsTeR HiLL has gained much critical praise from its contributions on the Tribute CD's to the Left Banke (Shadows Breaking Over Our Heads) and Klaatu (Around the World in 80 Minutes). With the release of their debut cd, MiNsTeR HiLL, formed in 1998, by Howard Herrick, the band's lyrical and music writer, plans an all-out assault on the pop-rock scene. Exquisitely produced by the sensational Christian Cassan, MiNsTeR HiLL has never conformed with a true and tested sound but has used it's own unique and original concepts to form a sound all their own. Taking elements of the Beatles, XTC, Floyd, Beach Boys, YES, Move, CSN&Y, Radiohead and other highly adventurous and melodic sounds, MiNsTeR HiLL will provide the listener with many fine musical moments. "This is an album that is as enchanting as anything else you'll hear this year...fabulous." - Stephen SPAZ Schnee, All-Music Guide "Truly original....Groundbreaking!" - Jeremy Morris, Jam Records "Intricately arranged, enigmatically composed progressive pop, like Brian Wilson producing Genesis." Michael Toland, Pop Culture Press. . Don't miss one of the best Pop/Rock albums of the year!"- MuzikMan Get to know Minster Hill - you'll be all the richer for it. An exceptional piece of work." Claudio Sossi , Shake It Up "Anyone who so effectively combines the eminent qualities of XTC, Jellyfish, Jason Falkner, Guided by Voices, Yes and CSNY is okay in my book! More than merely okay..a first-rate aural experience." Kevin Matthews, Power of Pop
