Jazz / Fusion / Polyrhythm 6 MP3 Songs JAZZ: Jazz Fusion, WORLD: World Fusion Details: *****

This recording is unusual in several respects. ***** The compositions were chosen, not only for their rhythmic variation and adaptability to polyrhythmic interpretation but for their overall musical contribution as well. Listen to the polyrhythms if you want to, or just listen period. There are six tunes and six polyrhythmic themes. For example (Samba de Rollins) has a drum / tenor sax smoken' duet followed by an up tempo drum solo. The solo begins in 4/4 and as it developes the solo goes slips into half note triplets while the hi hat cymbals keep the basic pulse going in 4/4. You can listen for these things happening throughout the cd or just listen . The cd stands on it's own. track #1: " Doin Time in 4+6 " Features 6 over 4 (quarter note triplets) or 1&1/2 to 1. the drums are in both times at the same time throughout. track #2: " Five for Barbara" Listen for this 5/4 composition go into 4/4 as the drums then go into 5 over the 4/4 track #3: " The Modulator" Metric modulations, Listen for three tempo 's going up and then three tempos modulating back down. (George Duke on the acustic piano is happening) track #4: " Seventy Fourth Ave." The band is in 7 the bass is in 4.(at the same time) track #5: " Samba de Rollin's " (Don Menza just of the Buddy Rich) band at his best and also his composition. The drum solo is in 3 over 4. track #6: " Midnight Bolero " A soulful waltz with 2 over 3 and 4 over 3 polyrhythms. The Musicians: George Duke - Keyboards Don Menza - T. sax and Flute Dave Young- Bass Pete Magadini-Drums re-mastered in cd format 2003 and just as the album went so goes the cd: Four stars **** " A very good recording from a very young label " Stereo Review Pete: " I loved your album.
