Mp3 Solarno - Remotely Programmed Moonshot

DOWNLOAD HERE

A journey around the electronic solar system fusing modern sound technology and the Cold War era space race, all surrounded by an Oort Cloud of random sonic musings. 11 MP3 Songs in this album (49:28)! Related styles: ELECTRONIC: Electronica, ELECTRONIC: Synthpop People who are interested in The Chemical Brothers Orbital Banco de Gaia should consider this download. Details: Fusing the simplistic nature of early 8-bit music, today's powerhouse digital synth wonders, and a background in classical and jazz performance, Solarno conjures up the joy of danceable electronica with the depth and richness of a Hollywood movie score. Solarno is the musical alter-ego of Jim Furey. When he's not busy writing music Jim can be found doing any of the following: Fighting giant rusty bison. Enjoying a tasty hotdog. Wearing his beautiful fiance's killer beenie. Looking dashing on top of tall buildings. Running from giant prehistoric fish. or... Writing even more music. See all this and more at soundsofsolarno.com
