Unique and original, this music explores many different pathways and delivers with strength, craftsmanship and intrigue. 20 MP3 Songs POP: Pop/Rock, CLASSICAL: Impressionism Show all album songs: Love is Real 2007 remix Songs Details: This great reworking in 2007 of Love is Real is one of the most profound reconstructions of our century on State Street. Jason Mielke provided fresh blood into veins of a very strong green monster. It is our opinion that you will be highly delighted when you hear this remix. Love is real was meant to be a CD that was to be heard by a larger number of people. That is, it was designed to appeal to larger numbers if such an opportunity were to occur. Though largely vocal, seven instrumentals additionally comprise the grand event. You can find great details about the songs at garagebandand the examples are beta mixes of most of the tunes. This CD has the best mixes as of October 2007 and barring some unforeseen occurrence will likely be the final mixes through eternity. The songs are in special groupings though the order is mixed so as to give. the real feel of the variety deal. Straight ahead rockers include She, Napoleon and After Reward" have similar textures but After the Reward is a much different song. It is more Omni in style and morphs through seemingly contradictory textures and gets its seriousness from the fact that it is part of the Tunnel series which is available now with the Tunnel part one CD. Bounty Hunter is also a song that is part of the continuing Tunnel series. Bounty Hunter has more of a humorous bent and is consistent with the truculent czar type of song in its lyrics. The title song, Love is Real, is supposed to be pure pop with the donut form to the lyrics. The core, which is the emotional point, is surrounded by camouflage. The song New or Newer incorporates a folk attitude while Devils favor evokes the horror of the DC snipers. Haunting Blues is a true omni song and the ultimate version of it would be a live version where the opening theme is explored more with solos from various instruments. Hearts of Flame is an instrumental that is supposed to help people achieve an

alpha state of sorts as is Lets start the year anew but via different methods. A lot of fun is promised from the Love is Real CD and hopefully many enjoyable hooks can be brain mapped. I really wish you could imagine the voice of Don Pardo reading this. The keys of the songs hopefully form an amusing map of sorts and these songs were intended for use by other musicians in their live acts as a secondary goal. There are many ranging emotions that are explored and I hope you will purchase and enjoy this CD.
