

Introduction To The Physics Of Diluted Magnetic Semiconductors

[DOWNLOAD HERE](#)

Introduction.- Rudimentaries.- Large Gap DMS.- Magnetic Ion Wavefunctions and Interactions.- Dimensionality-Dependent Ion-Carrier Interaction.- Relaxation, Energy Transfer in Spin Systems, Transfer of Excitation from Mn to Band States and Vice Versa.- Spectroscopy of Spin-Polarized 2D Carrier Gas.- Interlayer Interactions.- Spin Superlattices, Spin Tracing.- Semimagnetic Quantum Dots.- Quantum Hall Ferromagnetism in DMS. EAN/ISBN : 9783642158568 Publisher(s): Springer, Berlin
Discussed keywords: Halbleiter Format: ePub/PDF Author(s): Gaj, Jan A. - Kossut, Jacek
