Ambient and downtempo sounds that vary from pure electronic composition to acoustic guitar and samples thereof 15 MP3 Songs ELECTRONIC: Ambient, ROCK: Psychedelic Details: Picture Calexico collaborating with Kraftwerk... Weaned on the old days of WaxTrax! records, Chicago native Bryan Douglas now lives in Seattle where his music has mysteriously taken a course toward downtempo beats, psychedelic chill, and gypsy guitar stylings. While his self titled release features only 2 tracks everyone will assuredly recognize as guitar sounds, at least 75 of all the sounds you hear on the disc are built from samples of his acoustic guitar. Perhaps there is no genre to fully describe these sounds.
