Beginnings marks the first chapter in Emily Lord's recording career. This contemporary folk album

delivers striking vocals and poignant lyrics worthy of the Americana tradition. An award winning vocalist

as a college student, Emily recorded an acoustic version of her song "Angelina" for a University of Notre

Dame compilation CD. The dramatic reaction on campus convinced Emily to record more of her songs,

and Beginnings is the result of that effort. Emily's rich voice delivers compelling, emotional, lyrics written

straight from the heart. Fan favorites from this album are "Angelina" and "Are You an Angel Tonight", both

of which deal with the tragedy of life cut short. Other songs from this album such as "Shores of Alicante",

"Dachau," and "Raining in New England" chronicle her experience as she ventured throughout The

United States and Europe. This album is listening music for people who appreciate powerful vocals and

meaningful lyrics.
