Over the past quarter of a century we have created many worlds of fantasy horror. From submarines to medieval castles we have been on many a dark journey together. It has always been our intention to excite your imagination with the world we create to entertain you. The music that accompanies these experiences has always been a vital part. As in any great film the music creates the mood and Kevin McCurdy's Haunted Mansion is no exception. These tracks are inspired by the last 25 years so from our family to yours we hope you enjoy them as much as we our guests have. ABOUT THE ARTIST: Frank J. Petruccelli of Petruccelli Productions is no stranger to the Haunted Attraction Industry. For over 22 years he has been an actor, performance coach, fan, builder, brainstormer and for the past 6 years de-composer (sorry couldn't resist). Music has always been an important part of his life and he has great respect for the way music can effect what a person is seeing visually and how it effects them psychologically. He grew up in Poughkeepsie NY and now resides in Boston MA where he attends the Berklee College of Music as a Film Scoring student. He is grateful for the Haunted Attraction Industry, and his friend Kevin McCurdy, for the opportunities they have provided.
