"Purpose Peace" is wonderful for relaxation, meditation, or a cozy chill out kind of atmosphere. A mixture of piano, sound design, samples, vocals, ethereal guitar, percussion and dreamy synths make this work rich in texture, mood and heart. 11 MP3 Songs EASY LISTENING: Background Music, ELECTRONIC: Ambient Details: " My intention while recording "Purpose Peace" was to create something simple, soulful, slow, and with a lot of space. I came to my creative dungeon in the beautiful San Jacinto Mountains every day to embody that state of mind. Not only for the sake of my sonic vision for this project, but also for my own mental, emotional, and psychological healing within the process. At the time, I was experiencing struggle in my life and needed to surrender my human tendency for control, judgment, and fear. Volume 1 of this record helped me through this process." All songs are recorded in a one track at a time, one take only, improvised fashion. This gives the record a loose and raw eclectic sound that is at once soulful and gentle, yet deeply driving, empowering, and visionary for the listener. It is a journey and each song emanates a state of mind intended for higher awareness. It is a record intended to make the listener calm, light, introspective, and inspired in the ways of the self, reality and personal truth. I will be releasing volume 2 of "Purpose Peace", when it comes to me. :- ) Thanks for your interest. Lucien
