While at an artists retreat at Mojcar, Stephen was asked to perform a concert of original music. This music is the result of that request. Inspired by Flamenco innovators, influenced by great Brazilian artists, shaped by the possibilities of the guitar itself, this music is a very personal statement made loud and strong by the contributions of some extraordinary artists. So crank it up! Let Katerinas footwork pound your chest. Let Paulos bass lines come up through your feet. Sing the melody in Johnnys drumming. Enjoy. Our music is al que quiere - for whoever wants it. Note: If you bought our earlier release, "Naranjas Amargas," then these titles will be familiar to you. This CD is a re-recording of the ten tunes on that album. Bigger, Better, Basser.
