12 MP3 Songs WORLD: World Fusion, WORLD: Judaica Details: RebbeSoul crafts an energetic sound

...packs an eclectic armament ...from Jewish and Arabic music...RebbeSoul forges a danceable fusion

defying easy categorization - Popmatters Soulful mission: RebbeSoul dedicates his long-awaited CD,

Change the World With a Sound, to peace in the Middle East and throughout the world. This fusion of

traditional Hebrew melodies and rock makes for a stylish Middle-Eastern groove. RebbeSoul's goal to

foster unity through music is aided by a stellar backup band that includes... Deep Den of the Jerry Garcia

band and Steve Carter of Spearhead. Shalom. - Halifax Herald Despite the efforts of groups such as the

New Orleans Klezmer Allstars and the Klezmatics, the term "Jewish music" still evokes an image that's

more Fiddler on the Roof than MTV. Los Angeles-based RebbeSoul may be the artist to change that. The

first song on this CD (his fifth) is a Lubavich melody attributed to King David, but RebbeSoul's sizzling

rock guitar and tight rapping by Prophet X would have the king shaking his thing. Other songs range from

the dub feel of "Kaddish" to the folk-rocky "Shalom" and "Rock of Ages." Perhaps my favorite is "Eliyahu,"

with a stripped-down funk groove, soulful Hebrew vocals by Lynn Rose, and some tasty hand drumming.

- SpinTheGlobe.com/ KAOS It's a thick and soupy blend of Middle-Eastern percussion, growling rock

guitar, plucked balalaika and funk bass that builds to a perfect simmer... "Kaddish",... a meditative

instrumental piece over recordings of Kaddish prayers from all around the globe, to powerful effect. -
