Ten of those artists are included on this cd soundtrack along with producers like Tariq Alexander, J-Classic, 88 Fingers, Fitzgerald McGill, Screwface, and many others. This soundtrack features East Coast, West Coast, Dirty South, R&B, Gospel and Blues all featured in the highly anticipated urban drama The System Within will be release on DVD May 8, 2007 by URBAN WORKS ENTERTAINMENT/FIRST LOOK STUDIOS according to THE SYSTEM WITHIN FILM PRODUCTION, LLC (TSW) The movie cast includes seasoned actors: Hawthorne James (The Five Heartbeats, Speed, Bossin Up), Grammy award winner Bryce Wilson (Beauty Shop, Trois, Weekend Vibe), Robert Miano (Donnie Brasco, Thick as Thieves, Detour) and the film debuts of multi platinum rap star Chingy (Right Thurr, Ballin Baby Pullin Me Back) Tiffany Wither from BET and model actress Kim Porter. Dale Resteghini, who has earned the title The King of Urban Independent Cinema, directs the film. Before others got on this unique casting bandwagon, TSW toured the nation by bus to audition thousands of talented but unknown actors, singer and dancers to participate in this first of a kind film project. This will combine the skills of working professionals with talented but untested amateur cast members, who were selected from the 40 city talent search. The project is the brainchild of Tariq Alexander, a model-actor- songwriter-producer who also stars in The System Within. Alexander said We wanted the real thing for this movie so we went on a grassroots expedition looking for talent outside of New York and Los Angeles. What we found was tremendous talent and a phenomenal support base for our project. The beauty of it is that this can be a launching pad for many careers and a

platform for addressing issues that touch us all. The System Within ; set in contemporary America; explores the realities of being imprisoned by Federal conspiracy Laws and trapped by unjust Judicial sentencing guidelines. On the surface, this movie will have you grooving in your seats to the sounds of past present urban rhythms, while the fashion hot off the runways of the world will put you on top of the latest fashion trends and the essence of urban pop culture. Upon further review, The System Within will reveal how corporations profit from racial profiling, negative capitalism and institutional slavery, stripping our youth of economic alternatives and moral values. THE SYSTEM WITHIN FILM PRODUCTIONS is a multi functional company specializing in movies and music. All TSW productions have a common goal of empowering new artists by aligning them with seasoned artists. Tariq Alexander stated We will always makes opportunities for first timers; not only actors, singers, songwriters, dancers, but hairstylists, make-up artists, and wardrobe designers and production staff so they gain experience working with established industry professionals. We can effectively do this because we have a networking database of entertainment professionals and contacts. The good news is that we are having great success with this venture and our entertainment network membership is growing worldwide. It is fulfilling to speak with people from all over the world on conference calls and by email and to encourage them to pursue their dreams. TSW will begin pre-production on its next film and soundtrack project in spring 2007.
