- Are you having problems finding great new product ideas? - Are you investing too much time & money and still getting nowhere? - Are you wasting too much time looking for your first/next big product idea?

THE BIGGEST PLR PROBLEM: Lazy or uninformed Internet marketers simply stamp their name on PLR products and immediately start selling them. By doing only that, they're missing out on the full potential of the PLR products - BIG TIME! If your branded PLR product is just the same as 1000's of other people's out there, then your profits are going to be limited - and you'll end up wondering why your profits aren't anywhere near the level you thought they'd be. There is only a small percentage of Internet marketers that take those extra steps and make more money than the normal resellers... SOLUTION =====

Introducing The PLR For Newbies Video Series! The PLR For Newbies Video Series leads you by the hand, step-by-step, click-by-click, to creating great new unique products that not only sell, but can

Increase Your Profits several times over! CONTENTS ===== Video 1 - Intro to Private Label Rights & The Tools You Need. One of the biggest, most-common problems you may run into during product creation is not knowing where to start - you have writer's block or an 'idea block'. Or you simply don't have

enough time and money - also a very common problem. So let's start with how you can use Private Label Rights resources to turn them into your own unique new products. As mentioned above, most people will take PLR products and just stick their name on them. The PLR For Newbies Video Series will reveal powerful ideas you can use to stand out from the crowd. In Video 1, you'll also learn the tools you need to assemble before continuing on to the remaining videos. Video 2 - Converting PLR Articles To Your Own. Private Label Articles are by far the most commonly-used type of Private Label Rights resources online today, simply because PLR articles are shorter, easier to create, and more widely available than other forms of PLR products. Instead of just sticking your own byline on your PLR articles, there are many ideas that you'll learn in this video to reshaping PLR articles into different forms that can greatly increase your exposure - and your profits! Video 3 - Making The Most Of PLR E-Books. Private Label E-Books are the next most-widely available type of PLR product because many people love to write. Since e-books are larger, you can generally do a lot more with them when you reshape the PLR products into different formats. In this video you'll learn how to do just that - and once you get the hang of processing PLR e-books you'll understand how to easily make them over into your own unique products. It doesn't matter if 1,000 other people have PLR to the same e-book, because the PLR For Newbies Video Series will show you how to stand out from that crowd... Video 4 - PLR Audio - Audio E-Books & Audio Articles In this video, we won't just be going over the basics - we'll reveal many cool out-of-the-box ideas to you that most people will not even think of! By using the ideas in Video 4 you'll be ahead of the crowd right from the start! Video 5 - Real PLR Gold - PLR Videos! When you get Private Label Rights to videos, most people will simply resell them. But what good does that do when 100's of other people may be doing the same thing? It is not hard at all to rebrand PLR videos, add audio, add and remove video clips, etc. In PLR For Newbies Video 5 you'll learn how to do that and you'll discover some new ideas that'll allow you to reshape your PLR videos into other product forms as well. Exciting, isn't it? :) Video 6 - PLR Source Codes - Private Label Software It doesn't matter if you have ZERO experience writing software code - in Video 6 you'll learn how to manipulate Private Label Source Code and take it to the next level. While others may have to resell it without even adding their names to the source code, you'll be learning how to add and remove features without so much as touching the programming itself. You'll learn tricks and tips to keep your costs down if you decide to hire programmers to alter your software, too! You'll also discover how to keep yourself safe should you hire a software developer you don't already know.
