

Unikey 5

[DOWNLOAD HERE](#)

UniKey is a very small and easy-to-use Vietnamese keyboard for Windows. UniKey is free and open-source. You can freely use UniKey under the terms of The GNU General Public License. See screenshots of UniKey. UniKey supports: Many character sets/encodings: TCVN3 (ABC), VN Unicode, VIQR VNI, VPS, VISCII BK HCM1, BK HCM2, Vietware-X, Vietware-F. Unicode UTF-8, Unicode NCR Decimal/Hexadecimal - for Web editors. All 3 popular input methods: TELEX, VNI and VIQR. All Win32 platforms: Windows 9x/ME, Windows NT/2000/XP. UniKey is very small (120 KB), does not need any additional library. No installation is required.
