Length of Recording: 60 minutes Audible Track: Silent Don't even think about putting a lot of conscious effort into positive goals without preparing your sub-conscious mind for success first! If you're serious about changing your life, read further. You have been hypnotized by your life experiences to believe a great number of things about your personality, your abilities, and the world in general. Often, these lessons are positive and help you to grow towards your true potential. There are times, though, when you may learn lessons that tend to hold you back, on a subconscious level, from those things you truly deserve and desire. As you go about your life, your subconscious mind records your experiences and creates beliefs and behaviors based on these experiences. In this way, your brain is similar to a computer; the subconscious mind operates strictly from the information programmed into it. Your conscious mind determines what information is programmed into the subconscious. For this reason, bypassing the critical factor of the conscious mind allows suggestions to be accepted easily into the subconscious mind, allowing you to make up your mind to change. All of your behavior is adaptive. You do certain things because your conscious mind believes that the behavior is helping you. In other words,

everything you do is due to your mind's interpretation of your life experiences. Luckily, what was created with your mind can be cured with your mind! These Self-hypnosis recordings are vastly different from the majority of subliminal products that you will find online. Recorded Supraliminally - We use the high quality software and equipment to create supraliminal recordings which contain suggestions that are recorded at very high frequencies which are outside the range of normal hearing. This method allows the suggestions to be heard and accepted by your subconscious mind without interference from your conscious mind. Although you will not hear the words, your subconscious mind will hear and accept them. Over 100+ Hypnotic Suggestions - This recording contains over 100 positive suggestions, written by a professionally certified Hypnotherapist and NLP practitioner who holds a Master's degree in psychology. Highly Effective, Well Researched Suggestions and Format - Human beings have different ways of processing information. Every person is unique. The way your brain works is unique. For that reason, each suggestion is given at least three times, in various formats so that your subconscious mind can absorb it easily. No matter who are you are - you will see results. Instant Download - Listen to this prior to falling asleep at night. 100 percent guaranteed - If this product does not help you feel more confident about yourself or help you move towards your goals in 90 days contact us.
