

Mp3 David Coate - A Million Ways

[DOWNLOAD HERE](#)

A Million Ways includes 12 original worship songs written by David Coate. The style is upbeat and in the jazz/rock/funk genre. 12 MP3 Songs GOSPEL: Contemporary Gospel, ROCK: Funk Rock Details: Although I have recorded many of my own Christian 'performance' cds, 'A Million Ways' is my debut worship music cd. I have been leading worship for about ten years now and continue to find the experience to be exhilarating. In my view, the excitement of worship is due not solely to the music, but rather God's presence which is manifested whenever two or more are gathered in Jesus' name (Matt. 18:20). Corporate worship is powerful because of the involvement of the entire church as a body, as opposed to the performance of a single individual. What is worship? It is primarily an 'attitude of gratitude' for salvation through Jesus Christ and for all the rich blessings that God bestows on us. This gratitude, this worship of God- for who He is, not for what he can do for us- can be expressed in a million ways, every second of every day and forever. My prayer is that you too find a million ways to praise Him, and in so doing, experience the indescribable joy that I have felt writing and recording these songs.
