Con todo mi corazon.....David Lee Lopez Biography With family roots in Barcelona Spain, David grew with a love for music. His love for music began at a very young age, when he heard Tina Turner sing Proud Mary on the radio. As a youngster David remembers singing with his records of Journey, Boston and Chicago. He began to sing when he was in Junior High and has continued to the present. David has always had a great love for

Spanish music, from remembering his father singing along to the greats like Jose Alfredo Jimenez, Jose Jose, Luis Miguel and Juan Gabriel. His deep passion for music is only rivaled by his passion toward love. As the lyricist to most of the songs on his debut album "Solo Para Ti" David felt it was best to express the one thing, which means so much to him and that is the power to love. "I wanted to introduce myself as a singer of passion, dance and love," says David. Upon writing the lyrics for the track Solo Para Ti David was inspired and found he had a great passion for writing. The album at first was a huge challenge for all involved but as each song was written and recorded the feel and love for this music made the journey such an awesome and inspiring experience. David's main vision for this album was to express to the world the great power, passion, and love found in Latin music. He learned to use true love experiences in forming his lyrics to bring his music to life. With this album David's hope is to be able to touch all generations from young to old and bring them together in this wonderful experience called Latin music. "I want to touch as many people as possible and hopefully cause them to remember, if old a great time in their youth, or if young a hopeful time for the future." David wishes to dedicate this album to God, family, and friends for without them none of this would have ever been possible. Con todo mi corazon.....David Lee Lopez
