Parents rave about this album, saying their child has listened to it nightly for 2, 3, and 4 years! Della brings her soothing musical style to new compositional depths, giving tiny ears and grown-up ones too, a fresh palette of contemporary classical music. The rich, sonorous tones of a string quartet will have you floating in dreamland, while the shimmering female vocals offer simplicity and softness to your soul. Especially enjoyed by children are the songs, "Gifts" - a children's ensemble's celebration of the simple gifts in our lives, and "Vespers", a boy soprano setting of A.A. Milne's poem of Christopher Robin saying his bedtime prayers. There is much to be enjoyed by everyone on this album--mostly a peaceful night's sleep!
