Deeply personal hard rock, with a dash of rap, punk, and even blues influence, but let's not get that deep into classifying it- IT'S ROCK. 13 MP3 Songs ROCK: Hard Rock, BLUES: Rockin' Blues Details:

Millenium Grey is a hard rock band based in Birmingham, Alabama. The music is different from most of the rock that you hear on the radio. This is one band that isn't ashamed to admit that they were influenced by everyone from Guns N' Roses to Nirvana to Korn. Personal experiences and views are the basis for every song, and the lyrics mesh well with the sound. Todd Nelson, who wrote, recorded and produced this album in his home; uses a childhood filled with uncertainty, insecurity, and ostracism, and an adulthood filled with uncertainty, insecurity, and a world full of lemmings to fuel emotional songs about real life. These songs get darker as you progress into the album, but end in the realization that we can all relate to most of it. Some ideas are universal. ***** TRACKS 5, 9, AND 10 CONTAIN LANGUAGE THAT HAS REQUIRED THE MARKING OF PARENTAL ADVISORY. AN EDITED VERSION OF THIS ALBUM IS AVAILABLE AT milleniumgrey.com.***** Todd says, "I hope this album gives others a sense that someone else has been where they're at before and come through it."
