A ORIGINAL SONGWRITER WITH A MELLOW SOUND RAPPED AROUND SOME MEANINGFUL WORDS, THAT'S ROY MUNIZ 16 MP3 Songs FOLK: Folk Pop, FOLK: Folk Blues Details: Roy Muniz-Songwriter/Singer/Guitarist is a Prolific self taught type of craftsman of music. A Montana Native, Roy as a youngster worked hard to buy his first Alvarez Guitar. For the past 30 plus years, Roy has had a create as you go attitude, and doing all he could to express the inner man. His two biggest influences were The Beatles and Neil Young. Not bad role models. It was the Harvest Album and song book that was the kick start of his music venture. Roy regularly performed at the Ice House in Pasadena, Ca and as well at the open mic. nights at the Troubadour in West Hollywood, this set his confidence like concrete. His style of Folk/Rock Acoustic Folk/Blues and Ballads found many- many walls in coffee houses every where hes gone. In 1988, Roy became a single parent with three children which slowed his music locomotive down but never ran out of track. His natural yearn to write never faded. In fact, those days were a pouring out of emotions which blasted out song after song about Love, a seemingly endless search for it with a picture of the Ocean, Rivers, and Mountains as a back drop. With the children grown and healthy, HE PUSHES ON! These days, this Songwriter has his focus on just getting the songs out there. Living with his lovely wife in Oregon and Montana, Music isnt just a hobby he adds, its my life. We all need to leave something positive behind, hopefully I do as he looks toward his old Alvarez. You can also listen to Roys songs at beta recordsunder artist search roymuniz, bownarrowmusic, or straightflutes, ENJOY.
