Elektronitrash 8 MP3 Songs ELECTRONIC: Industrial, METAL: Dark Ambient/Noise Details: Saposmittz - The Sons ov 666 Born into cancerous lives as sons ov devils, these two amerikun demons you know as (((Saposmittz))) experienced extremely diffikkult lives growing up as amerikan vampyres in hell. Both kids being mindfukked by religious dogmas from the devious mix ov serpents and sapofreekz in their lives, both ov these evol minded bastards soon began to appreciate the pain ov hate that the unsane robotikk peopl fukk offered them each day in life. Both began to pent up massive amounts of frustration and anger until ready to explode like nuclear atomic bombs. Both having darkkened desires to cause massive amounts of destrukktion and death, and with endless amounts ov casualties (similar to the nu wurd holokkaust of 2007). Through both pissed off teens mutual admiration ov hate and death towards humankind, they began to establish a mutual flesh konekktion ov sorts, as both ov these angry youth now began to crave raw pain, hate, violence and gore and both becoming fixated with the behavior ov malicious serial killers. Also becoming fascinated with bloody war, both teens became addikkts ov war, as what better hobby is there to have as young adolescents growing up in amerikun ghettos filled with kkloned kkrakk kkreeps, whinos and S.A.R.S.??? Now as adults, (((Saposmittz))) have joined together as musicians with a mutual purpose...to murder you all!!!
