Sniper List Building Get Access & Start Building Your List BIG Now! When using the strategies you discover inside Sniper List Building you will learn how to grow your own targeted list of subscribers from scratch into the 100s... and quickly the 1000s mark which you can turn into your own personal ATM! I Cant Say That Enough! The reason I say that is, just look at it for a minute. We all start with zero subscribers. Then we get our first 100, and then 200 and so on. Its great to see your list grow but when youre trying to release a product; a small list of 200 is not going to get you many sales? Maybe 5 if your lucky. 5 buyers on a \$27 dollar product isnt bad, but its not a big payday to me. Now lets look at it from a Sniper List Building point of

view. Releasing a product to a list of 5K plus people and just 2 of those 5K buy at \$27... Now We're Looking At A Very *NICE* Payday ;) I understand how it is to have a small list - or no list list at all! You're not the only one. I was in the exact same position as you were, so was James. We've all had our struggles to make money in internet marketing. But I'm not here to get your sympathy I'm here to show you how you don't have to go down that path of not making a dime on the internet or settling for small checks. I want to show you how to build a big responsive list so you will never have to worry about where your next dollar will come from ever again. You just don't know the power of having a massive list of buyers! But that's ok.. you will soon (when you build your sniper list following my course). But let me give you another example of how powerful having a big list can be. I gave you an example earlier of having a list of 5,000 people and offering them a product that cost \$27 (I'm being very modest here, you can promote products that bring in \$97 a pop). So if just 2 of those 5,000 buy, that's 100 sales at \$27 = \$2,700 cash! Yes! Cold Hard Cash! Do you see what I'm talking about? It's just ridiculous! And for example let's just say you have 5 products that you want to release to your list and all are the same price. \$2,700 every time you click the SEND button...are you serious?! Yes, I'm deadly serious! Do that several times a month.. and do it every month! James and I am living proof that it's possible! Send out 4 or 5 times a month for a \$27 product and that's 5 figures every month like clockwork!! Wooooo Weeee!! But let me slow down here so I can get YOU filling up your pockets.
