This isn't just any Adsense Theme pack, this is a recipe for a full time income source. All the ingredients are provided to generate hundreds, thousands, or tens of thousands in Adsense revenue per month. We've created the Goose that lays the Golden Eggs, it's up to you to feed it and nurture it - treat it right and it will lay Golden Eggs for you! Imagine creating a healthy full time income from just 10 Adsense websites. We've managed to source 545 key phrases that are virtual Adsense gold, and have the potential to allow you to do just that. Each key phrase has a minimum estimated CPC of \$20, moving right up as high as \$56.12. With the estimation that an Adsense publisher can expect to receive approximately 10 of CPC, that puts every one of these key phrases at roughly \$2 to \$5.50 per click. To get you off to a flying start with attacking these golden key phrases, we've created ten niche Wordpress themes, purpose built to make it easy for you to start targetting these key phrases and generating Adsense golden eggs. Each theme comes with its own dedicated, niche specific list of high paying keywords. All you need to do is setup one Wordpress site with each theme, and base your content on the included list of key phrases. Use your preferred method of traffic generation, and watch those big value clicks come in. To put things

in perspective, lets run a couple of numbers. Say for example you set up your ten sites, add content and start driving traffic. In the beginning, you get one click a day on each of your ten sites. With an estimated \$2 to \$5.50 for each one of those clicks, you will already be earning \$20 to \$55 per day, or \$600 to \$1650 per month. Thats just from one click a day on each site! Lets say you then hone your technique and your approach, and you build your ten sites up to the point where each is getting 10 clicks per day. Still a relatively small and achievable number of clicks. But when you are targeting these key phrases, 10 clicks per day on each site will equate to between \$200 and \$550 per day, or \$6000 to \$16500 per month!
