Acoustic Guitar music of the soul. 11 MP3 Songs EASY LISTENING: Mood Music, BLUES: Jazzy Blues  
Details: Acoustic Poetry is a coming together of steel and nylon strung guitars. The partnership is in its 20th year and still enjoying all forms of acoustic music, mostly their own compositions. 'Journey' is comprised of various genres of music and was inspired by countries and happenings of the early 21st century. Our 'Tribute to New York' commemorates that terrible September day and is dedicated to all the families of those who perished or were scarred by that outrage, 'Spanish Diabolo' is a journey from Spain to Brazil and back again and for the first time, on two tracks, we have taken the music of great American composers and added our own interpretation to these evergreen songs. Bill Carbley and Chris Sotnick (Acoustic Poetry) love playing their music, and we know that you will let their musical feelings embrace you. Enjoy.
