He grew up with jazz, funk, jungle and soul. As a little child he used to play piano watching outside the window dreamin. Then he started rockin and funkin around with friends the first stage experiences. Then he played jazz with his buddy Alex Trebo for several years, this turned out to be very useful to understand the fun, the control, the energy you can have on stage. After the jazz period he formed the band Dirty Soul. Funk, grooves, energy, dub, jungle.pure energy. Then the first official CD came through a the production of the Cd Eternal Life with the band Capsicum Tree. Red Canzian, a famous italian musician, produced the Cd and linked them with Carosello/Warner Bros. Radio interviews, TV shows, new experiences, tryin to feed the italian pop island with some groovy stuff. Finally Chris decided to produce this album, a Caress, songs that came naturally from his acoustic guitar through the years. A new approach, very melodic, straight rhythms, acoustic guitars, string arrangements. Very real and sincere songs and a lot of work. Enjoy.
