

Mp3 Cooterfinger - Three Chords And A Grudge

Five of the most primal garage rock songs to ever crawl from the muck and mire of rock n' roll. 5 MP3 Songs ROCK: 60's Rock, ROCK: Punk Details: This 5 song ep has got a great, everything in the red, garage rock sound to it. If you like Thee Headcoats, The Mummies, The Thirteenth Floor Elevators, and The Sonics you'll probably dig Cooterfinger. It's basic, primal rock that works just as well as dance music for a sixties go-go bar or the soundtrack for hotwiring a car and going on a joyride. This is the kind of music that's ugly and raw enough to make even today's jaded, grew up on metal and punk parents say, "turn that noise off", and that's a good thing. And don't tell anyone, but underneath all the overdrive and caveman guitar riffing are some genuinely good pop songs. This is definitely my kind of trash. (Utter Trash)-Bob Ignizio
