Between some spacey keyboards, and dreamy guitar, these sounds will take you in the space and beyond the infinite. 7 MP3 Songs NEW AGE: Space, ROCK: Kraut Rock Details: I was born in the 60's in Normandy (France) near the Channel, in a non-musician family. So my musical curiosity for English pop rock musicians was huge, and especially for guitar heroes. Ritchie Blackmore, Jimmy Page, Eric Clapton, David Gilmour, Steve Hackett, and here and there some American guitar players like Carlos Santana, Ted Nugent, Johnny Winter or Frank Marino... and some forgotten sons! So I listened to space rock, heavy metal, progressive, blues, jazz-rock, everything musical, beautiful, powerful... I was very opened. And I became a self-taught musician at the end of 70's. After playing guitar and singing in some obscure prog rock bands for long years, I chose to play Space Rock music as a solo artist. Thin borderline between this two musical styles! My influences are Berlin School for keyboards, and mainly David Gilmour in my guitar playing. People who are interested in Tangerine Dream Vangelis Klaus Schulze should consider this download.
