Hyphy, Bay Area, Thizz, Yellow Bus, Freestyle King, Greatest Beats On Earth 13 MP3 Songs HIP HOP/RAP: Hip Hop, URBAN/R&B: R&B Rap mix Details: When Mistah F.A.B. (Faeva Afta Bread) dropped his independent debut, Nig-Latin, in 2002, he was considered just another freestyle rapper who couldnt make complete songs. Four years later, the self-proclaimed Prince of the O has three tracks, Super Sic Wit It, N.E.W. Oakland and Kicked Out the Club, spinning in heavy rotation on 27 stations across the U.S. Not bad for an artist who wasnt expected to ever make it out of the Bay. In the beginning, all I did was freestyle, says the animated rapper born Stanley P. Cox. A lot of people were like, Hes just a backpack rapper, he cant do nothing. Now its like, Hes just a radio rapper, hes commercial. After catching a glimpse of his toothy grin, you might think F.A.B.s on some happy-go-lucky shit. But his sophomore album, Son of a Pimp, released in April 05, proved that the Cali upstart aint no joke. Nowadays, you have a lot of artists who have no substance behind them, says the 24-year-old. My dad died of AIDS, my moms a recovering drug addict and my brother just got out of jail after doing 11 years straight. Instead of turning into a victim of circumstance, Mistah F.A.B. has learned to use his tragic family life to his advantage. My mothers pain, my fathers death and my brothers inspirational letters are what fuel my fire to continue to want to do good. Capitalizing on his growing buzz, F.A.B. is slated to release his next project, The Yellow Bus Ryda, in May on the late Mac Dre label Thizz Entertainment. The album is finna be on some real super-hyphy stuff, he explains. Its gonna cater to the yellow-bus kids, to the dudes that go dumb. And at the same time, its gonna have some of that deep stuff where I can talk about whats going on out here. With guest spots from artists like E-40, Too \$hort and Lil Wayne, YBR is shaping up to be F.A.B.s most well-rounded work to date. Thizz iz what it iz. + The wait is over. The moves have been made. The industry has begun to recognize one of the most gifted and talented producers in The Bay Area and

The buzz that followed allowed him to produce a couple of key songs on Mistah F.A.Bs Son of a Pimp (Thizz Ent.). In the process he has also gained notoriety by producing for most of the key players in the Bay Area rap scene. (Yukmouth, B- Legit, San Quinn, Turf Talk, Messy Marv etc.) Gennessee has a few projects in the works. He has recently signed an alternative rock group, DogWood Speaks to his label Noble House Records (noblehouzerecords.com), and with the success of their first single Where U From, the future looks promising. His beats are definitely falling in the right hands. The recent Bay Area explosion has opened a lot of doors.....so here it iz....the hottest rapper of the region teaming up with the hottest producer to make history. (it is also Gennessee's last effort on the mic...) We bring you "Life On The Rock". Enjoy.
