Combining electro pop grooves, world percussion and lyrics that reflect his experiences and views on life. As a one man band, Preston uses computer software and a digital studio to produce his music. Whether its a full techno instrumental or an accompaniment with lyrics, Preston is always creating new music. You can tell Preston is a fan of all genres of music, Roll The Dice has a dazzling array of styles, while at the same time never losing Prestons unique sound. The first song on Roll The Dice is entitled Single Sexy, which is an anthem for breaking away from drama and confusion in order to figure out who you are as a person. I was at the point that right after one bad relationship another one would begin, and I was caught on this cycle of never ending rebound. So I decided that for a while Id be single and figure out who I am and what I really want. A music video for Single Sexy has been released and is viewable on prestoninside.com. "Single Sexy" was directed by The Art Institutes Megan Earhart. Preston comments that the video has been a long time coming. It took a bit of time at first to figure out how our schedules would be able to merge, but we figured it out and Im so happy we got to work together. Megan Earhart, along with Lauren A. Kartachak from the University of the Arts, shot the photography and design for Roll The Dice. The album itself is about identity and making choices in life. This ranges from sex, break ups, rebounding, blowing off steam and learning from past mistakes without regrets. Born and raised in Aston, Pa, a very conservative town, his colorful personality always made him stand out. Whether it was dying his hair multiple colors, or doing a comedic skit as Madonnas Like A Virgin for his high school variety show, which to this day is still talked about. His high-energy performances in college talent shows won him a reputation for being a

crowd pleaser as well as a few awards. Preston adds, I dont want to just be a singer, songwriter/producer. I want to be a part of the entertainment business as a whole. Ive had limited experience acting, and I would love to develop that part of me. Whether its in future film school projects or in a play. Television projects would be awesome and you can bet youll see me at a few auditions, once I get more experience. However, music is my main focus at the moment and my first love. Preston discovered his love for music in school plays, choirs, talent shows and also as a DJ at a small local bar. Being a DJ was great, I liked having that kind of connection with a crowd. Every once in a while Id secretly plug in my own stuff to see the crowds reaction. I had a lot of fun, but I wanted more, to be in the spotlight and perform my own stuff live. Prestons playful comedic attitude and multi faceted sound suggest that were only scratching at the surface with this true chameleon artist, much like the world did when Madonna and Kylie Minogue first came to the music scene. Preston is currently and independent artist, but dont be surprised when he takes the world by storm. People who are interested in Madonna Justin Timberlake Gwen Stefani should consider this download.
