my own up beat brand of contemporary electric folk pop based on my light-hearted experiences of life, love and travel. 12 MP3 Songs FOLK: Folk Pop, POP: Folk Pop Details: The songs were composed when mood and inspiration took me, usually prompted by an experience, situation or meeting with someone. My compositions are manifestations of self indulgent pleasure, and when others enjoy them, it is most rewarding. The lyrics are generally laced with a sense of light hearted irony and humour. I'd like to thank human nature, love, laughter, death and all the human subjects, without which none of these songs would have been possible. Also my brain cell for not crashing, ground coffee, and the madness of the full moon that give the sentiment and endearment in the lyrics that certain edge.
