STYLE???..WHAT STYLE???..I'M 2 VERSITILE..... 17 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: Rap Details: Siqsteen Barz is an independent artist out of Los Angeles who is now furthering his educational career by staying in school and remaining positive. Starting out as a young emcee with no concrete foundation for music, Siqsteen always had the drive to strive for excellence with his music. Growing up in a single parent home only made things harder for Siqsteen but the reality of a dead-beat dad/absent father pushed him to attain things only dreamed about by his father. Never settling for less, he pioneered a Los Angeles hip-hop crew of 8 elite emcees whom he would be the leader and head producer. His production was very low scale being that expensive equipment was in no way accessible to him. This did not stop Siqsteen though. By studying classic producers such as Dr. Dre, Timbaland, and N.E.R.D., Siqsteen was able to formulate his own style of production. From hard hitting club bangers to slow grindin' r'n'b hits Siqsteen is an all around versitle producer carrying hundreds of beats under his belt by the age of 19. With his first public solo album attempt, "UndaGround Pro" (cdbaby.com/cd/siqsteenbarz) , and his series of parody songs Siqsteen street credibility evolved from "just another rapper" or "just another producer" to "damn I never heard a sound like that." Mr. Versitility is what some may call him. His style is creative in which he incorporates comedy in his lyrics so the listener iz all around entertained. Siqsteen will make you laugh on one song, make you think on the next song, then make you think and laugh at the same time on the following song. You never know with Siqsteen. He is definately an emcee who is outside of the box. Living in the bay area while still trying to represent Los Angeles but not trying to be a "gangsta" is a hard task that is done successfully in his music. At the present time, Siqsteen Barz has one main focus. This focus is simply to succeed in the music industry but stay true to himself and the ones who care about him. Hiz current cd, "UndaGround Pro v1.6"

(cdbaby.com/cd/siqsteenbarz2) , is an excellent album lyrically and prduction wise. It features 16 tracks of pure fire that will definately keep you and your parents and your children knodding your heads. Great things are soon to come from this album. This cd is Siqsteen Barz giving back to present day Hip-Hop. Hip-Hop is in such peril due to ignorance that is forced on us and called "hot." Siqsteen is a true defination of hot. He is not a puppet.....He is ready to make change.....But is the industry really ready???
