Americana infused pop. Soulful, gritty and twangy with sweet harmonies and enough hooks to go fishing with. A solid mix of the Jayhawks, the Kinks and the FLYing Burrito Brothers. 11 MP3 Songs ROCK: Americana, ROCK: Roots Rock Details: Soulful, gritty and twangy, with sweet harmonies and a hard to contain lead guitarist, the Bee's Knees are in a world of their own. Beyond description, the Bee's Knees take from so many aspects of American music; from country and blues to roots rock and pop. Featuring four young, yet veteran musicians (Ed Barnett, lead guitar/vocals; John Donovan, bass/vocals; Joe Giotto, drums/vocals; Michael Thibodeau, rhythm guitar/vocals), and a workaholic mentality, the Bee's Knees have the feel of a road-tested, bar-battered band that is known for getting on and off stage faster than they can play any of their songs.
