A strong mix of country with fiddle, accordion, and great harmonies. 11 MP3 Songs COUNTRY: Country Rock, COUNTRY: Traditional Country Details: This is the latest CD from the legendary Doo-Wah Riders. Although there are fiddle and accordion on practically every track, this album is a slight departure from their trademark cajun-flavored country. This band has never been afraid to experiment, grow, and evolve. Sometimes songs have a life of their own, says accordion player Kenny Lee Benson. When we're in the studio, its important to keep an open mind and let the music take you to where it naturally wants to go. In this case, we are thrilled with the results.
