

iPhone Unlocking Software , Rr

[DOWNLOAD HERE](#)

Unlock your iPhone NOW! FOR ONLY \$18. Our company provides an unlocking solution for all types of iPhones, including the latest iPhone 4. We provide everything you need to unlock so that you can use your iPhone freely with any carrier you want. Our software solution is compatible with both WINDOWS & MAC. We don't charge according to iPhone models like others. Our solution is free for unlimited unlocking of iPhones.

1. What service do you provide? We provide a complete solution to unlock all first generation 2G iPhones, all second generation 3G iPhones, and also the very latest third generation 3GS iPhone up to and including iOS 4.0. Use your iPhone on any network such as AT&T, T-Mobile, Fido, Orange, Tracfone, Vodafone, O2, Oi, Telefonica, Rogers, Tim, DiGi, Cellone, Swisscom, Telcel, Starhub, Si.Mobile, Telenor, Cellcom, Movistar, Optimus, Tesco, 3-Mobile and many more.
2. Is this compatible with iPhones purchased in the USA? Yes, can be used with iPhones purchased in any country.
3. Can firmware / iOS version 4.0 be unlocked? Yes, iOS 4.0 for all 3G and 3GS iPhones can be unlocked. (iOS 4.0 is not compatible with iPhone 2G)
4. How easy is your service to use? Follow simple, step-by-step instructions and within minutes your iPhone will be ready to use to its full potential.
5. What operating

system does it work on? Our service caters for both WINDOWS and OSX users (including the new Snow Leopard operating system). 6.Do I need a piggy-back sim? No additional hardware is required to fully unlock either a 2G, 3G or 3GS iPhone. 7.How many iPhones can I unlock? You are free to unlock as many iPhones as you want. This isnt limited to one model either. If you have a 3G iPhone and your partner has a 3GS, you are free to unlock them both with a single purchase. 8.What features will I lose? You wont lose any features of your iPhone. 9.Which model of iPhones are supported? 2G, 3G and 3GS iPhones. 10.Will you charge for future updates when they become available? No, when you purchase from us you will receive 100 FREE updates FOR LIFE to guarantee your iPhone ALWAYS REMAINS UNLOCKED! 11.Is there any GSM network this will not work on? We havent found a GSM network that it doesnt work with. Please note that the iPhone will never work on CDMA2000 networks such as those operated by Verizon Wireless and Sprint. This isnt a software issue, its due to an incompatible radio technology issue. We simply cant turn a GSM phone into a CDMA2000 phone. 12.Is unlocking your iPhone illegal? Part of the copyright code, Section 1201 of the Digital Millennium Copyright Act of 1998, makes it illegal to break digital locks to get at copyrighted works. But there is an explicit exemption for personal unlocking issued by the Librarian of Congress in 2006. As the Librarian wrote, the locks are used by wireless carriers to limit the ability of subscribers to switch to other carriers, a business decision that has nothing whatsoever to do with the interests protected by copyright. 13.What is it I am purchasing? You are purchasing a 6 months or lifetime membership to our website. In doing so you gain access to our members area which we maintain and update with instructions and downloads to all currently working iPhone unlocking solutions. We offer a one-stop solution to unlock your phone and keep it unlocked!
