Flavor Explosion... In the tradition of Miles Davis's bastard hangers on far and wide, we create entirely new jewels from musical curbside particle board chunks and discarded carpet samples. 9 MP3 Songs

JAZZ: Acid Jazz, ELECTRONIC: Experimental Details: Banker Dave was the happeninest thing to come out of Portland's SE 60th Street musical enclave in the whole spring of 2002. Then, Dave up and quit his job at the bank and commenced to deprive himself of all the monotonous vignettes of elderly upper-middle class life that bank life had provided. How, then, does one tap this energy remotely? Hmmm, maybe we should instead ask: Are you going to purchase a chunk of his corpse like all the other vultures in the world of the music enthusiast? Very well. We have marked the price down. The forces behind Banker Dave, that is to say, Dave (Jorgensen) have been writing music for rock band Kieskagato lately, and I'm sure that if you check out new release You, Are The One, Who Can (Iconic Rocket Records) you will be able to follow the BD thread as it continues to unravel.
